Wonderful cheese board inspiration for Easter!

Our regular tip for a creative cheese board; cut the different cheeses in different ways.

On this cheese board:

- Slices of Lavender cheese
- Small wedges of old sheep cheese
- Crackers
- Tomato
- Passion fruit
- Pistachio nuts.

The beautiful flower shape was made by scraping the organic jersey cheese into slices and placing all the slices in a round dish around each other, it gives that nice effect!

The green pesto cheese is cut into big wedges and placed in another dish.

This way your cheeseboard is playful and just a bit different than usual!
