## Bereidingswijze

Preparation:

Cut the different cheeses into different shapes.

For the pumpkin cheese, we cut cubes and also used a pumpkin die.

Make strips, dots, cubes and possibly slices of the other cheeses. Also cut the plums.

Place the different cheeses spread out on the cheese board. Sprinkle the nuts and plums between the different cheeses. Slice the grill sausage and place it between the cheeses as well. Fill the empty spaces with ghost chips. Add the dips and your plank is ready!

We used small pumpkins and paper bats and spiders as decoration for this board.
